## Education

2018-2023

### Diploma In Engineering

Computer Science & Technology  
Rangpur Polytechnic Institute  
CGPA 3.74

2018-2023

### Secondary School Certificate

Computer Technology  
Rangpur Technical School & College  
GPA 5.00

## LANGUAGE

English

Hindi

Bangla

## PROFILE

My name is Ehaoteshamul Islam Kisor. I work as a full-stack web developer. I am really passionate about web development. When I finished the JavaScript Programming course. Here, I developed a strong foundation in web development principles, languages, and technologies, such as HTML, CSS, and JavaScript. Using Raw CSS, I built a few responsive websites. For a better user interface, I occasionally utilize Tailwind. Then I develop a project using the DOM and API. I post some code samples and a straightforward JavaScript project on GitHub.

After that, I successfully completed an industrial training program in web development using MERN Stack at E-Learning and Earning LTD. Here, I can sharpen my Full MERN Stack Development skills. I developed a notion for using the MERN stack for whole website building. A solid understanding of the MERN Stack Technology as well as certain new technologies (such as Axios, Firebase, Strapi, and JWT). These technologies have been used in some of my projects. Right now, I'm honing my technical skills.

## COURSES

OCT 2022 - DEC 2022  
E-LEARNING AND  
EARNING LTD.

### WEB DEVELOPMENT WITH MERN STACK

I've learned all I need to know in this thorough course to create full-stack online apps utilizing MongoDB, Express.js, React, and Node.js. The course walked me through the process of building practical web apps from scratch while covering the key elements of the MERN stack.

OCT 2021 - DEC 2021  
FREECODECAMP

### PROGRAMMING WITH JAVASCRIPT

This thorough course is meant to provide me with a strong foundation in JavaScript programming. The fundamental ideas of JavaScript, such as variables, data types, control flow, functions, and object-oriented programming, are covered in this course. I had previously honed the abilities necessary to make interactive and dynamic web apps by developing JavaScript code in the real world.

## PROFESSIONAL SKILLS

HTML

CSS

JAVASCRIPT

REACT

MONGODB

NODE
